TOUCH SWISS COMFORT

**easyShape**

## INNOVATION BASED ON OUR EXPERIENCE

**easyShape** offers you exciting new fabrics for one of the fastest growing product categories in the lingerie field (in volume and consumer relevance).

Your customers expect truly performing garments, which can be worn on special occasions or every day without compromising comfort.

Our years of experience producing highly functional sportswear fabrics enabled us to create **easyShape** with the following additional consumer benefits:

- 1 Enhanced moisture management**
- 2 Hygienic properties**
- 3 High durability**

**Eschler *easyShape* fabrics are produced with the following characteristics:**

**Weight** (DIN EN 12127)  
150 to 350 gr/m<sup>2</sup>

**Elasticity** (M & S P14, at 3.60 kg)  
Length 80 – 180%, Width 80 – 200%

**Modulus** (M & S P14, at 40%)  
Length 250 – 500 gr, Width 200 – 500 gr

**Compression** (Eschler classes as 1 – 3)  
For more details, please refer to our  
Flyer “Compression”

**Moisture management**  
(Eschler classes as 5 – 7)  
For more details, please refer to our Flyer “MMT”  
(Moisture Management Test)

**Hygienic properties** (ASTM E 2149-01)  
After 30 washes at 40° Celsius, more  
than 80% of hygienic function still active

**High durability**  
After 30 washes at 40° Celsius,  
no decrease in elasticity and modulus

# easyShape

## SHAPING PERFORMANCE AND COMFORT...

- Excellent shaping function
- Ease of movement
- Perfect fit
- Silky smooth touch
- High breathability
- Consumer safety and sustainability guaranteed by bluesign

## ...WITH THE ADDITIONAL BENEFITS OF *easyShape*

### **1 Enhanced moisture management**

*easyShape*, with its enhanced moisture management, keeps your customer feeling comfortable all day long.

### **2 Hygienic properties**

*easyShape*, with its permanent anti-bacterial properties, helps your customer feel confident while wearing your shapewear garment.

### **3 High durability**

*easyShape* maintains its elasticity, stretch recovery and does not wear out, even after multiple washes.

TOUCH SWISS COMFORT

## CHRISTIAN ESCHLER AG

For more than 80 years we have been producing innovative and highly functional knitted fabrics. Converted into garments they are extremely comfortable to wear. We call it the Eschler comfort factor, which is reflected in our claim "Touch Swiss Comfort". This plus in comfort cannot be explained, it has to be experienced. You will find Eschler fabrics in seductive lingerie, protective work wear and functional sports wear.

"Touch Swiss Comfort" means more to us than just an advertising slogan; our fabrics for the shapewear industry are developed with Swiss know-how and produced under strict quality control.

Our fabrics are manufactured in accordance with the comprehensive bluesign standard which stands for an environmentally friendly production and careful management of resources.
